| **Purpose**                            | • The purpose of the work is clearly stated and aligns with the micro-credential goal, objectives and outcomes.  
• Reviewers can readily determine the intended use and application of this work in practice. | • The purpose of the work is unclear or ambiguous.  
• Reviewers are not able to determine how the work might be used or applied in practice. | |
| **Analysis**                           | • Includes evidence of reflection and analysis of the topic.  
• The work is situated within a body of relevant literature.  
• Discusses how the work has been informed by current theory and practice. | • A mostly literal description of the work without discussion of how it has been informed by current theory and practice. | |
| **Assessment**                         | • Realistic and appropriate strategies for observing and measuring the effectiveness or impact of the work are considered and outlined.  
• Limitations of these assessment methods are discussed and strategies for combatting challenges may be offered. | • Minimal consideration of how the effectiveness of the work will be assessed.  
• Unrealistic or inappropriate assessment strategies are included without discussion of the limitations of these strategies. | • No discussion of how the effectiveness or impact of the work can be assessed (observed and measured). |

</thead>
</table>
| Analysis                      | • Includes discussion of the most relevant or highest priority ethical considerations in this area.  
• Clearly articulates why these ethical challenges are important to the area.  
• May offer a summary of differing perspectives on the discussed situations. | • Identifies ethical considerations that are marginal to the topic but ignores higher priority concerns. | • Does not identify ethical considerations or concludes that there are no ethical considerations in this area. |
| Strategy                      | • Potential strategies to address ethical challenges are considered and outlined.  
• Limitations of these strategies are discussed.  
• Differing perspectives on strategies may be included. | • Does not offer potential strategies to address ethical challenges. | |

---

**Proficient**

- Includes discussion of the most relevant or highest priority ethical considerations in this area.
- Clearly articulates why these ethical challenges are important to the area.
- May offer a summary of differing perspectives on the discussed situations.

**Developing**

- Identifies ethical considerations that are marginal to the topic but ignores higher priority concerns.

**Request Resubmission Without Review**

- Does not identify ethical considerations or concludes that there are no ethical considerations in this area.
